Light Emitting Diode Display

Display Type	LED
Display size	325-cm Diagonal
Resolution	H = 1920px, V = 1080px
Brightness	9999 nits
Uniformity of Brightness	90%
Operational Hour	24 x 7
Dimension	2500 x 3500 mm
Contrast Ratio	14000:1
Aspect Ratio	16:9
Response Time	8ms
Viewing Angle	150.131 degree
Display Colour	4400
Colour and Brightness	Auto matching mechanism
Light output of Projection Engine	999 lumens
Total Lamp Wattage	234 Watt
Life of light source	100000 hours
External Control Interface	RJ45, Power Connector
Data wall controller	Multiscreen Viewing
Data wall management software	Available
Data wall ports	4 x DVI Input and Output Ports
Upgradability of Controller	Available
Mounting	Wall mount
Power Supply	100-240V
Power Consumption	12636-Watt, 1 Watt in Standby mode
Accessories	Wall Structure
Operating Humidity	90 % RH
Operating Temperature	-25 to 55

Weight	615 KG
Warranty	3 years
